

**Author/authors, name of school:** Mariana Morari; Diak Helsinki

**Title of thesis:** An Evaluation of Student Experience of Joining and Participating in Student Groups in JIS

**Time and place:** 5th February 2019 14.00 Cesky Tesin

- 1. Task-setting** **Grade 2**
- Working-life orientation, responsiveness to working-life needs
  - Goals set for professional competence and development
  - Clarity and delimitation of task-setting, clarity of research or development orientation
- 2. Implementation** **Grade 1**
- Functioning of the approach in relation to the task setting
  - Mastery of work, development and research methods
  - Management of the thesis process, exhibition of responsibility and ethicalness
- 3. Justifications and originality of thinking and action** **Grade 1**
- Conceptualisation, knowledge base and comprehensiveness of view
  - Use and relevance of domestic and international sources
  - Originality of thinking and argumentation
  - Treatment of ethical issues
  - Participation and preparation for guidance sessions, interaction
- 4. Form** **Grade 2**
- Correctness and fluency of the language, consistency, style
  - Clarity of the structure, form and layout
  - Description of the product or production, its form and technical implementation
  - Clarity and illustrative quality of the presentation session, justifications for solutions

**Summary opinion:**

The problem definition and the framework for understanding groups are inadequate and the research methodology is implemented mechanically. The recommendations to and follow up with the institution are not innovative. Scant new learning and reflection on working methods.

**Total Grade: 1**

## Thesis project:

Please check the appropriate box(es):

- A working-life party pays either Diak or the student for the production of this thesis.
- The supervisor allocated for this thesis represents working life.
- A research permit, agreement or other written document determines the manner in which the work community can make use of the findings of the thesis in its operations.
- This thesis is produced in a Diak project.
- None of the above.
