

# **Evangelization in some recent Movements**

## **Abstract**

The aim of work Evangelization in some recent Movements is to map the lives of selected movements with a broad scope in relation to their evangelistic activities in society. The work is further focused on the introduction of the methods of evangelization in individual movements. It will bring the specifics of evangelization according to the nature of each movement, their comparison with each other, but also a comparison with the concept and idea of evangelization of the last popes, especially Paul VI, John Paul II and Francis. Following these comparisons, this work describes the evangelization in our society, its nature and the need of evangelization for society in our country.
