

This rigorous work treats of the firm agenda in the Regional Court České Budějovice or more precisely in its commercial senate along era of monarchy, also 1850-1918 years with slight overshoots. It gives an account of main diplomatic types for the office books, documents and acta at the concrete example. This work dissects the outer and inner characteristics of that archival material.

One part refers to using of legalizing means, also the seals and stamps in diplomatic contact of trade units and associations with state offices, mainly with regional court. Thus short sigillographic excursus does its best to map a period under investigation.
