

MERCY IN THE PROPHETS

Terezie Strettiová

A study on mercy in the prophetic books according to the Hebrew canon. The present study includes, first, a lexical study on seven basic Hebrew roots, a literary study of text quotations in three groups and a few suggestions to the theological concept of mercy in the prophets. The work studies in a more or less detailed way all quotations from the prophets in which the chosen roots for mercy occur.

Key words:

Bible

Old Testament Hebrew prophets

mercy

lovingkindness

love
