

## Anotace:

The point (goal) of this work was to analyze author's Christology and Soteriology of delivering the doctrine of Church about Jesus Christ, who is He and what His earth-life stands for us, to common people who lived in totalitarian regime in the period of communism. The true information about the situation in the country and in the world, mostly about the course of events in the Church in general and in the Czech particular Church (primarily about the II. Vatican council) was denied to all people. Churchgoers were threatened and discriminated. Not all people, who father Karel talked to on the airwaves, were churchgoers. This particular aspect author had to include too.
