

8 Appendix

The appendix contains all examples of *prevent* + NP + (*from*) + *-ing*, *prevent* + genitive NP + *-ing* and *stop* + NP + (*from*) + *-ing* constructions. It consists of two parts due to a large number of examples. The first part (Appendix 1) contains all examples of *prevent* + NP + *from* + *-ing*, *prevent* + NP + *-ing* and *prevent* + genitive NP + *-ing* constructions. The second part (Appendix 2) includes all examples of *stop* + NP + *from* + *-ing* and *stop* + NP + *-ing* constructions. In each part of the appendix, the examples for each construction are divided into groups based on the corpus/subcorpus they are extracted from. The order of examples corresponds to their order in the corpus. If the example is mentioned in the analysis, the number assigned to the example in the analysis also appears in the appendix (in brackets) to enable an easy retrieval, e.g., PF45 (1).

Codes of examples (abbreviations):

PF = *prevent* + NP + *from* + *-ing*

P = *prevent* + NP + *-ing*

PGE = *prevent* + genitive NP + *-ing*

SF = *stop* + NP + *from* + *-ing*

S = *stop* + NP + *-ing*
