

Abstract (anglicky) The bachelor thesis

This bachelor thesis topic is the activity of Czech physical education organizations in the Hlučín region between years 1920-1938. The aim of the work is to monitor the development of physical education associations in Hlučín region and to clarify the difficulties associated with this. At the same time, it is necessary to clarify how the Czech physical education associations participated in the formation and propagation of the Czech patriotic idea and nationalism in Hlučín region. We focus on the activities of physical education organizations Sokol, Orel and DTJ in this bachelor thesis. We will clarify the specific national and thus cultural situation in the Hlučín region in the previously defined period of time at the beginning of the thesis. In the following chapters we will pay attention to individual physical education organizations (establishment of unions in the Hlučín region, spectrum of activities developed). The final chapters are devoted to the synthesis of the activities of physical education associations in the Hlučín region and their importance in the national struggle.
