Report on defence of dissertation thesis

Academic year: 2023/2024

Student's name and surname: Mgr. Kristýna Hlavatá
Student's ID: 65856255

Type of the study programme: doctoral
Study programme: Botany
Study ID: 455143

Title of the thesis: Phylogenomics, genome size evolution and repeat dynamics in the genus *Amomum* Roxb. (Zingiberaceae)
Thesis department: Department of Botany (1200)
Language of the thesis: English
Language of defence: English
Supervisor: Mgr. Tomáš Fér, Ph.D.
Reviewer(s): prof. Thomas Haevermans, Ph.D.
Mgr. František Zedek, Ph.D.

Date of defence: 04.03.2024 **Venue of defence:** Praha
Attempt: regular

Course of defence: The Ph.D. defence of Kristýna Hlavatá started with a 25 min presentation of the candidate on her Ph.D. topic, followed by the evaluation of her thesis by both opponents. It continued with an intensive debate between the opponents and the candidate, the committee members, and finally the public audience. The candidate's performance, both in written and oral form, was perceived very well by the scientific audience, as the presentation was very clear and the candidate showed her knowledge in her research field and beyond thus, the committee voted fully in favor of the candidate.

Result of defence:	pass (P)
