

## **Abstract (in English)**

The aim of this diploma thesis is to create a modern critical edition of a manuscript related to the Premonstratensian monastery in Chotěšov. It covers the period from the end of the 15th century (from 1489) to the youngest entry dated in 1640. The introduction comprehensively describes the history of the Premonstratensian order and its gradual establishment in the Czech lands. Subsequently, a research in the area of necrologies was conducted, both abroad and in the Czech Republic. The edition itself is preceded by a detailed analysis of the necrology from a codicological and paleographic point of view. Furthermore, the evaluation of the manuscript content from the point of view of its connection with certain facts from the history of the Chotěšov Monastery is also performed.
