

## ANNOTATION

Authors name and surname: Junková Jana

Institution: Department of Pastoral Theology and Law Science,

Catholic Theological Faculty, Charles University in Prague.

Name of thesis: Christian education of pre-school children

Thesis supervisor: PhDr. ThLic. Marek Matějka

Key words: personality of the child, socialization, Christ-centrism, celebration, symbols

First part of the work shows view of pre-school children education to harmonic personality. On the basis of scientific literature describes development specifics of children, shaping of personality and identity, socialization as a process, where besides influence of society in kindergarten the main part is rooting in family. Second part sets targets of Christian education to acceptance of God and his message. Presents false and distorted ideas on God, that definitively revealed in Christ. Third part focuses on education to celebration through symbols, words and acts. Describes meaning of celebrations, symbolic understanding of liturgy celebration and Christian feasts. There are shown examples of author's projects „Shepherd and sheep“ and „Wandering with little light“ for Christian department of kindergartens in the last part.
