THE TEACHING OF RELIGION IN THE PARISH ZBRASLAV BETWEEN THE YEARS 1985-2010

The main goal of this theme was to describe and analyze the teaching of religion in the parish Zbraslav between the years 1985 -2009. In the 1980s, the teaching was done by pastor, since 1992 by laic. From the research done in the elementary school in Zbraslav I found out that in 1980, the lessons of religion were visited by 13 – 17 % of schoolchildren, in the 1990s, by more than 30 % of schoolchildren. In the beginning of 21.century the interest falls slowly down during each year. There is a surprising detection from year 2009, it is the fact that the attendance in the lessons of religion in elementary school is as poor as in time of communism. The drop of interest is mainly caused by decrease of catholics in the parish and also by general meaning, that it is enough to visit the lessons of religion only until the time, the child takes firstly the sacrament of Holy Communion.
