

# **THE PROBLEMATIC OF INTER-RELATIONSHIP BOUNDARIES IN THE CHRISTIAN ENVIRONMENT**

## **Summary**

In the Christian environment, the same sociological-psychological principles are valid as anywhere else. The aim of the work is to clarify the knowledge of the topic of borders on general level and to view the life of Jesus Christ, the ideal of humanity, from the perspective of borders. I will also attempt to show the way in which the incorrect and selective understanding of the gospel principles may lead to psychologically insane attitudes.
