

Abstract: The Care for soul

In this work I tried to describe and explain the movement of the human soul with regard to epimeleia. I attempted to establish the connection and communication between the soul and the core of existence as it is. This connection represents the deepest meaning of the existence in the world and we should be aware of the fact, it is of utmost importance to devote ourselves to keeping up this connection and communication. Our basic tools to execute this task would be posing a question and aiming for transcendence.
